ANONYMOUS Makeup Test
Dirt & Character hands

I am passionate about my profession and I am a teamworker at heart.

For me, there is no difference in requirements of quality whether if I work with actors or with a crowd. The final result has always been to achieve my highest standards and to deliver the most realistic look for that specific character. I chose to specialise in moving pictures instead of stills photography because I love telling people's stories within the framework of filmic medium with the makeup and hairstyles I create.

As I am an all-rounder, I can work in many positions within the department, be it hair or makeup, cast or crowd.

My Credo is: Handcraft is the basis of every art because it gives you more than one option to create that unique look you have in mind.

Always be curious. Never stop learning.
